About Braswell High . . .

Braswell High School is slated to include numerous features to enhance education and allow the school to serve as a hub for the communities along U.S. Highway 380. These features include:

**Architecture**
- Academic House concept
- Strategic incorporation of natural light
- Open and windowed collaborative spaces
- Indoor/outdoor space with flexible walls
- Robust wireless access and technology integration
- Common hallway networked printers
- Adaptable/flexible classroom spaces
- Student work displays in common areas
- Auditorium and Fine Arts performance areas
- Competition and practice gymnasiums
- Multi-line cafeteria
- Modular meeting areas
- Digital signage for announcements

**Eco-friendly amenities**
- Low-maintenance/low water use
- Abundant usage of natural light to limit iridescent lighting when possible
- Geothermal heating and cooling system

**Outdoor Learning**
- Amphitheater as a learning tool and performance space
- Flexible learning spaces with access to natural areas

**Community partnership opportunities**
- After-hours access for testing and virtual coursework
- Controlled access with limited and secure public areas
- Sound control to allow multiple activities to take place at one time
- Extended after-hours usage for various parts of the facility

**Safety**
- Lockdown and weather-safe areas
- Indoor/outdoor camera surveillance
- Secure vestibule with card access throughout the building
- RFD door monitors
